- Desired foot candle level _____
- Existing foot candle levels (if available) _____
- Ambient temperature at fixture (if available) _____

Fixture Preference & Additional Comments:

With all the above information supplied accurately we are able to supply a viable point-to-point layout in the shortest time.

Please note: JAFtech fixtures used in lighting layouts have been independently tested to IES Standards. These standards, in conjunction with information provided by you, form the basis of our lighting layouts. As many of the variables are not known, actual light levels after installation may vary slightly.
